## **The Art of HiringSmart**

**Presented by ActionCOACH & Henschel Business Services**

More than 70% of the population is disengaged in their work at some level, costing businesses \$millions each year in lost productivity. A big part of the problem is that companies are still using the traditional hiring system. Tim offers organizations a new and better approach to hiring that leads to better bottom line results. He will take you through a step-by-step process on how to determine the 4 aspects of fit – fit with the job, fit with the manager, fit with the team and fit with the organization.

During this workshop, participants will:

- ✓ Understand why the traditional Hiring System is failing business today
- ✓ Learn what separates top performers from poor performers
- ✓ Discover how to Fish Where the Fish Are
- ✓ Be exposed to new methods to measure what matters most and how to utilize this information during orientation and ongoing coaching/mentoring/training programs.
